lips, sunken cheeks. No man wants to marry an invalid. Very few invalds are attractive to either sex. It isn't natural that they should be. Many a woman's heart's happiness has been wrecked because of a crop of pimples or because of a foul breath, or because of some other unpleasant symptom of an irregularity in the performance of her natural functions.

Health in a woman brings clear complexion, red lips, vivacity, sparkle of eyes and inteflect. Eternal watchfulness is the price of health. The downward road to disease is fatally easy to travel. Little disorders, little irregularities, little drains, lead to the most serious consequences. Put a stop to them! Dr. Pierce's Favorite Prescription will do it without the embarraesment of examinations and "local treatment" so much dreaded by modest women. In nine cases in ten, there is absolutely so need of them. The "Pavorite Prescription" has been prescribed by Dr. Pierce for over 30 years and has cured the very worst forms of female troubles.

A book of 1000 pages, profusely illustrated, written by him containing much valuable information and letters from hundreds of grateful women, will be sent absolutely free or receipt of twenty-one cents, in one-cent stamps, to pay postage and wrapping only, by Wouln's Dispressary Medical Association, 663 Main St., Buffalo, N. BLOW AT MONOPOLIES

Senator Call Wants Public Conduits Built Here.

TO BE USED BY ANYONE

His Object Is to Relieve the Burden Borne by the Citizens of the District. Thinks It Will Be the Entering Wedge - Other Great Benefits Would Follow.

Senator Call of Florida struck a blow at nonopolies yesterday. . The Senator boids that the overwhelming

defeat of the Democratic party at the last two elections is due to its not fighting monopolies. He proposes to set the party straight on this subject. He also wants to help out the people

of the district. He believes they are groun-ing under the burden of more than one monopoly. He intends to lift one or two

of these burdens if he can.

The gas company would be hit real hard if his bill should pass, "But will it pass? Can any anti-monopoly hill get through the Senate? Senator Call is going to try to

answer this question. PROVISIONS OF THE BILL. His bill provides for making conduits is

It provides that the Commissioners shall build conduits in the streets for electric wires, as well as for gas pipes and tele phone and telegraph wires, for waterpipes and other wires or pipes that may be use-ful for lighting or heating or for tele-

phone or telegraph communication.

It gives the District Commissioners power to concern for public use all existing conduits, pipe lines and mains.

It provides that the conduits shall be open to the use of all persons or companies for narrows of beauty lightness or for the conduits of the conduits shall be open to the use of all persons or companies for purposes of heating, lighting or telegraph or telephone communication on the payment of a sum approved by the Commissioners. It provides that the work shall be done under the supervision of the engineer de-partment and Gen. Thomas Casey. It provides for the appropriation of \$500,-000 for the commencement of the work. Senister Matchell of Oregon, introduced a biligranting a pension to ex-Commissioner of the District West.

SENATOR CALL'S VIEWS. In speaking of his bill Senator Call said.
"I am alone in the introduction of this bill, but I mean to push it for all it is worth. I will get it up as soon as I can secure strength enough."
"What is the intention of the bill, Senator," we asked. tor?" was asked.

or: was asced.
"I am after the monopoles. The Demo-cratic party did not fight them as it should and look at the result. The catastrophes of the last two elections are due entirely to this-fact.

the last two elections are due entirely to this fact.

"Then again the people of the District are 1n boindage. This bill is the entering wedge for freedom. Once their conduits are built any person or any company can use them. Monopolites will then be a thing of the past in the Capital City."

"Would government control of telegraphs and railronds follow?"

"Well: said-the Senator, "these projects would be helped along. If such a scheme as the one proposed by me was successfully worked in the District. I think it would have the most beneficial results on the plans mentioned. But I'm after the monopoles and won't step."

THE MULTITUDE.

They Came and Took Possession.

It was remarkable to see the immense crowd taking possession of "Johnstons." the Seventh street process, vesterday. Bespise the inclemency of the weather, the establishment was filled to overflowing, and many were the remarks of admiration at the gorgensa display. The Chrisimas opening will be continued today, for the benefit of those who were crowded out yesterday. It is scarcely to be wondered that the announcement, in Sunday's paper drew a malitude, when the special inducements are considered. Just think of 10,000 pounds of caudy being given away! The bandsome banquet lamps and beautiful holiday allouns have arrived, and are now on exhibition. They will be given to holders of completed premium cards. They Came and Took Possession.

A FAST LIFE.

ITS PLEASURES AND ITS PERILS

Some Men and Women Who Live at Lightning Speed and Will Only Take a Vacation in the Grave. The Pace That Kills-

Times have certainly changed, and, in some respects, not for the better. The tide of life and competition is stronger than it was fifty years ago, and, like a swimmer with a strong tide against him, one must expend double the energy to win to the shortest of strong tide against him, one must expend double the energy to win to the shortest of strong tide against him, one must expend double the energy to win to the shortest of strong tide against him, one must expend double the energy to win to the shortest of against him, one must expend double the energy to win to the short of a strong tide same.

It makes no difference what goal we aim at the conditions are the same.

We live too fast, work too hard, drink too much, sleep too liftle, keep our nerves on the strain and lump all the time.

There are two classes of fast livers.

Increased speed in ANY machine, human or otherwise, means increased wear and tear and waste.

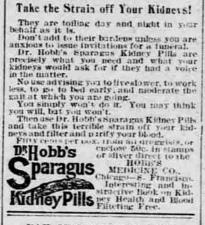

Increased waste of the tissues of the body means increased work for the kidneys, whose place it is to remove poisons and importities, increased kidney work means increased strain upon those organs, and increased strain without rest or reflect means disease. This is why so many fast livers, hard workers, hard drinkers, and hard smokers die of fright's disease.

Many men, not satisfied with the harm their overwork or fast life is doing them, must needs add to it voluntarily by porting more poisons into the system, that still further add to the work of the kidneys and irritate and inflame these organs.

We refer to Alexion, Tobacco and Opiates. Surely, there are enough poisons and importities in our blood already without adding more!

PAY OF STATION CLERKS. Movement on Foot to Increase it and

Their Authority.

The agitation which has been inspired in police circles by the fight which The Times is making for an increase of the force, has suggested to some of the advanced men in the department that the time is now the last a reform, the accomplishment of which the department, has long cherished.

For a number of years the station clerks, as they are known in the nongenerature. Their Authority. the department, has long cherished.

For a number of years the station clerks, as they are known in the numericature of the local police, have been hoping for better pay, better hours, and an increase of authority, and the police authorities, or at least a representative number of them, befieve that in addition to tais, station clerks should be chosen from the "force" and not, as now, appointed from private fire, and that they should be the ranking sergeant in the precinct. There are many other considerations which enter into the discussion. The Times spoke to a number of the members of the department and these were a unit in the approbation of the plan.

There is a wide difference in the authority, pay, and tank of the Washington station clerk and the desk sergeant of other cities, and yet their duties are substantially the same, and their responsibilities equally great. The Washington station clerk takes the names of prisoners and their description, assigns then to their cells, etc. This is the least of his work. His judgment is called into play mainly in the matter of coluteral. It is he who determines whether a prisoner may be released on collateral, and it is he who says how much this collateral shall be.

A mistake in this matter might prove of disastrons consequence to himself and to the department, and an indiscretion on the part of the station clerk as a bended officer and receives \$60 per hearth for

is sure to involve the fleutement of the precinct. The station clerk is a bended officer and receives \$69 per menth for twelve consecutive loars of daty per day. The pay of the lowest class private on the force is \$75 per month and lits duties are much lighter and his responsibilities small in comparison. The station clerk is not even a policemen and has no authority to order an arrest.

One of the best reasons why a Times gas comon should be sent in will be found in a plain statement of facts, with figures, furnished yeslerday by Mr. H. O. Hail, who resides at No. 102 Ninth street scatthcast.

Mr. Hail has had a very unsatisfactory interview with the officers of the Washington Gaslight Company, by whose fashion of managing gas meters he is out about \$10 on a condemned meter. The company tood him blandly that he coall get a rebut of 17 cents, and not cash either, but only on the next day of settlement.

Mr. Hail went to the company, prepared with a tabulated slatement, showing the steady increase in his gas bill for two years. He showed that he had used the same rooms, the same house, and all things being equal, as he was prepared to prove, the bill should have been the same from nonth to month. Here, however, is how he has been composited to pay lighter rates from 1894 to date:

MR. GROUT DECLINES IT. He Will Not Again Head the House District Committee. Representative Great of Vermont, chair-man of the District Committee in the Fir-ty-first Congress, has notified Speaker Reed that under no circumstances will be accept that ancer no circumstances with he accept the position again.

With Mr. Grout and Gen. Harmer out of the war, indications point to the almost cer-tain selection of Mr. Baboock of Missouri for the chairfunaship.

Attorney Thomas, Witnesses in Street
Extension Case Not Ready.

The atreet extension proceedings before Justice Cox, in District court, were again postponed for twenty-four hours, vesterday, upon the motion of Attorney Thomas, for the District, mon the grounds that the witnessess summoned for the government had not sufficiently familiarized themselves with the subdivision under consideration to be able to testify.

There were six witnesses, as follows:
Lester A. Barr. James J. Lamaton, Charles P. Stone, Charles Early, L. M. Saunders, and A. F. Fox. Two of these objected to testifying on the grounds that they were interested as property owhers.

In response to Mr. Thomas' request for a postponeenent, Mr. Nathamel Wilson, for the respondents, and the delay of a day FINANCIAL AND COMMERCIAL New York Stock Market.

The Pity Of It.

It is too bad that we have to sacrifice everything in the way we are doing, but it won't be our fault if we are worsted in the fight. We've a splendid line of

Overcoats --AND-
